Navy and lime are the brand. The other three are tints for backgrounds. CMYK figures are screen conversions: ask the printer for a proof before a large run.

5 RULES

- On white or pale grounds, use the navy logo. The lime Vel always sits inside navy.
- On navy, use the reversed logo: lime mark, white name.
- On lime, use the navy logo.
- Never put the lime logo, or lime text, on white.
- Never stretch, rotate, outline or recolour the logo.
- Never reset the name in another typeface.
